

F E A T U R E S

A Modular dump body control system that handles all in-cab controls at one location. InControl helps solve the problem of where and how to mount the hoist, PTO, tarp, lift axle and accessory electrical functions.

Modular design - allows you to easily create a control package that meets your needs

Three tower sizes - select the size that fits the cab and handles all the control requirements in one tower

Unlimited control types - cable control, air control, and electric control of Hoist, PTO, Tailgate, Tarp, and Lift Axles

Many choices - options exist to meet all budgets, select the control type to match the fleet, spec and budget requirements

Safety and comfort - adjustable base option locates controls in the proper position for driver operation

Easy component access - bolt on base, cover plates and rear cover allow ease of installation and service
