

F E A T U R E S

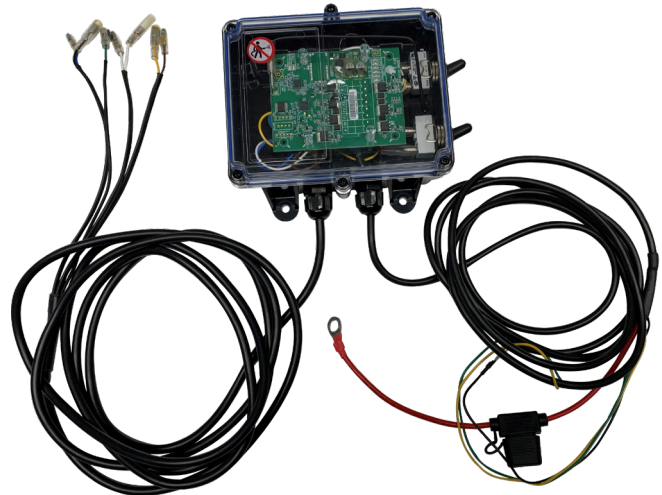

A wireless solution for Honda IGX Series commercial engines. Our transmitter, receiver and harness package offer complete control from a distance up to 150ft. Typical applications include pressure washers, portable hydraulic power units and other professional heavy-duty mobile applications.

- Plug in wireless control
- Range up to 150 feet
- Turns engine “on” same as the key switch
- Starts engine at a lower RPM
- No need to choke the engine
- Push button to throttle up to a pre-set or governed RPM
- Push button to throttle back down to the lower RPM
- Shuts engine “off” same as the key switch
- Still use the factory supplied key switch
- Optional Outputs available for auxiliary functions
- Note: 700/800 engines require software RPM settings from dealer
