

# Truck Mount Central Hydraulic Systems

LIGHT TO MEDIUM APPLICATION

# The Power to Do More

## IN LIGHT TO MEDIUM DUTY TRUCKS

### VT15 Valve Tank Assembly

- Provides a protective enclosure for all components, including the valve and tank
- Multiple valve configurations available

### Hydraulic Return Filters

- Multi-layered micro glass media
- High dirt holding capacity
- Integral air breather

### Liquid Applications Frame Mount Tanks

- Extra heavy duty

### Spin-A-Veyer® Spreader Control Valve

**FORCE America provides a comprehensive suite of mobile hydraulic and electronic solutions to fit your light to medium application needs, including winter maintenance trucks and sweeper applications. From central hydraulic systems to integrated controls and liquid management solutions to AVL/GPS-based fleet management tools – FORCE America has you covered. Our experience and capabilities provide the resource you need to develop a customized solution to meet your unique needs.**

### Mobile Resource Management

- PreCise MRM integrated AVL/GPS data collection, mapping and reporting systems

### Spreader Controls

- Manual or ground-based automatic controllers available
- User-friendly design throughout

### Power Take Off's (PTOS)

- Wide variety of sizes to match your needs

### Clutch Pump Mounting Kits

- Pre-engineered turn-key kits
- Available in serpentine and V-belt drive systems
- Kits available from Class 1 through 8
- "Live hydraulics"
- Flows up to 22 GPM at 2,000 RPM
- Pressures to 4,000 PSI

"Our county's fleet has been using FORCE America hydraulics and controllers since 2003. We continue to do business with FORCE America because of the quality of the equipment and superior service support. It is very apparent that the customer is always the number one consideration when dealing with FORCE America. We continue to use FORCE America products for the consistency in quality it brings to our fleet." - D.G., Director, Fleet Management, County Highway Department Midwest, US

#### Add-A-Stack® 4020 Manual, Pneumatic, or Hydraulic Actuated Valve

- **Stackable high and low flow sections**  
Up to 13 sections accommodating 40 gpm telescopic hoists to 3 gpm spreader functions
- **Five different valve operators available**  
Valve can be controlled by cable, electric on/off, electro-proportional and pneumatic or hydraulic pilot operated remote
- **Stackable Spin-A-Veyer® Valve Section**  
Provides unequalled meter-ability for spreader functions
- **Gear pump or load sensing versions available**  
Adaptable to open center or closed center systems

#### Add-A-Fold® Electric Actuated Valve

- **Manifold mounted valve sections**  
Unsurpassed serviceability with bolt-on style valve sections
- **Modular sub-base design**  
Provides unlimited configuration of valve sizes, including optional pressure compensation and work port reliefs
- **Optional ancillary manifolds**  
Spin-A-Veyer valve, cylinder port reliefs, and zero leak 3 and 4-way elements
- **Gear pump or load sensing versions available**  
Adaptable to open center or closed center systems

**1-888-99-FORCE**

**Sales and Service Centers**
