FORCE America, Inc. offers quality power take offs from Parker Chelsea to meet your application needs. With our array of inventory, we can provide a powerful solution to outfit your truck no matter the make or model. Offerings include the series outlined below.

## Power Take Offs from

### Chelsea<sup>®</sup> 210 Series

for Ford 10R140 Super Duty Transmission

The 10-bolt housing design of the 210 series allows for larger pump applications. Streamlined kitting offers 17 Parker gear pump options available in the same package as the PTO. The intelligent design of our 210 Series makes it the best choice for FORD applications.

- Shock load dampening feature
- Same housing can be used for 2WD and 4WD installations
- Up to 300 lbs-ft transmission PTO drive gear

### Chelsea<sup>®</sup> 249 Series

for Ford Super Duty 6.7 Powerstroke Diesel

The 10-Bolt housing design of the 210 Series allows for larger pump applications when compared to the 249 Series ( on FORD 6R140 Transmissions). Streamlined kitting offers 17 Parker gear pump options available in the same package a the PTO. The intelligent design of our 210 Series makes it the best choice for Ford applications.

- Single hose connection and integrated actuation valve
- Simple installation requires no special tools
- Intermittent torque rating of 200 lbs. ft.

### Chelsea<sup>®</sup> 272/282 Series

Powershift PTO - Air or Hydraulic for Mechanical or Automatic Transmissions

The robust design of this PTO transmits all the power you will need. It features 18 shift options, 12 of which are integrated into the PTO housing. Nine internal gear ratios offer a wide variety if speed to meet your application requirements.

- SAE 6-Bolt housing - 272
- SAE 8-Bolt housing - 282
- Electronic Overspeed Control
- Single Duty Torque Ratings
- Integrated Air Valve - No remote valve
- Shaft Brake- Internal self-adjusting

### Chelsea<sup>®</sup> 280 Series

Powershift Hydraulic 10-Bolt

The new 280 series features a single continuous duty torque rating. Three option positions for the integrated solenoid valve. Plus a remote mounted option provides maximum clearance under the truck. The pressure/lube hose will be included with the 280 Series.

- Wet Spline Pump Flange option provides 7 to 10 times greater shaft life
- Single Continuous duty torque rating
- Broader coverage of speed ranges from 5 to 9 ratios
