

## FORCE AMERICA ONE™

FORCE America ONE™ is a turnkey, fully-integrated, one-ton package for commercial plow and spreader applications. Designed and manufactured by FORCE® America, it offers easy installation and no calibration.

A simple, powerful solution that is perfect for the one-ton trucks in any fleet.

## FEATURES

- ✓ Total package offering an all-in-one solution
  - ▶ Includes valve tank enclosure, PTO, controller and joystick
- ✓ Easy installation and usability
  - ▶ Hoist and plow joystick easily added/ removed for seasonal use
- ✓ Automatically detected in the system
  - ▶ No need for additional calibration
- ✓ Automatic electronic limiting to allow for greatly improved flow sharing capabilities
  - ▶ Choose from two default limiting schemes or create your own custom scheme.
  - ▶ Limiting schemes allow flow sharing when multiple functions are operated simultaneously.
  - ▶ Eliminates the spreader or plow stalling while operating at low speeds.
- ✓ Ergonomic, compact design with adjustable mounting options
  - ▶ Offers comfortable operation of plow and hoist
- ✓ Quality components offering a powerful application
  - ▶ Designed and manufactured by FORCE® America, Inc.
- ✓ Built for commercial and public works organizations
