

F E A T U R E S

Hydro-Tek power packs are compact cost effective solutions that provide a hydraulic source of power using AC and DC electric motors. The power packs are complete system solutions that include the hydraulic pump, valves, reservoir, electric motor and controls.

- Center Blocks available with a wide variety of circuit types
- Center Blocks accept bolt on valves for added flexibility
- All cartridge valve construction with SAE straight thread ports
- Adjustable relief valves
- 13 pump sizes from .067 to .59 CID (1.1 to 9.8 CC) per/rev
- Motor power rating up to 5.25 HP (4KW)
- DC motors in 12 and 24 VDC
- AC motors available in Single and Three Phase
- Horizontal and Vertical Mounting
- Round, Square, Poly and Steel Reservoirs
- Reservoir sizes: 1/4 to 13 Gallon (1 to 50 Liters)
- Manual, Solenoid and Remote Pendant controls available
- Many custom configuration options available

Common Pre-Built Power Packs are in stock for immediate delivery.

Custom power packs can be built if needed for unique system requirements.

Modular construction based on a flexible Center Block design helps create a unit that fits your application perfectly!

Select a motor, pump, tank, valve and control type that meet your needs.

Hydro-Tek units accept both screw in and/or bolt on valves for a variety of in stock combinations.

Custom bolt on valve assemblies can be designed by our engineers to provide your complete all in one compact system solution.
